Napoleon will be inclined to spare her remendous magnitude has been perpetrated upon the Government, which in its liberal policy and generosity, had donated all the swamp lands into the States in which said Jescription of lands might lie. The Act, which was just and equitable in its character, has been prostituted by the agents appointed to carry it out. So great was the fraud in some of the counties, and it swells or diminishes in all, in protificial drainage or embankment. These affi-

rivestigation.
The Department at Washington has been thorities of the State were equally in posses-sion of the fact that a fraud had been perpe-

proved unavailing.

Finally the plan was conceived of sending ation of several weeks, notwithstanding the sworn to protect and advance the interest of the Government, has entered into a base coali-tion with Gov. Price of Missouri, and by his action sanctions an infamous fraud upon the

the premises. Having briefly called attention to the fraud of Missouri, in selecting lands under the Act of 50, and, the infamous coalition between Pierce and Price to cover the transaction, we invoke the power of Congress to do Justice to those in-dividuals who have expended their money in ferreting out the fraud upon the Government, WM. H. TAYLOR.

Kansas Election Yesterday. THE election of the Free State men of Kansas was held yesterday, and ex-

might select—thus making it to the interest of the agent to take all the lands he sould find within his county, under the act aforesaid.

In accordance with this arrangement, the agents for the State of Missouri selected the enormous amount of 463,969 01 acres. (See Report of Surveyor-General for Illinois and Missouri to Commissioner of the General Land Office, Oct. 31, 1854.) In the Palmyra land district along there has been more than one body to watch the ballot boxes. We incline to the opinion, however, from district alone there has been more than one incline to the opinion, however, from hundred and fifty thousand acres taken under what we hear, that the Lawrence and the act of 1850, not more than one fortieth Topeka districts will have the honor of part of which is swanp land within the meaning of the Act of 1850. Thus a fraud of a Reeder may receive. In some counties,

> they are right and that they are sustained by the law, will interpose no obstacle to the farce which Governor Reeder and his party have elected to play out, and if there should be any disturbance on Tuesday next, it will be because the

> Abolitionists provoke it. THE Tennessee House of Representatives elected Gen. NEILL S. BROWN (K. N.) Speaker, on the 40th ballot. The K. N.'s have a majority of one in the House. The Louisville

> Journal says. For forty-five ballotings the vote stood -Brown 36, Donelson 35, and 2 scattering, Gov. Brown and Gen. Donelson voting for some one else. It has been the usual pratice for the rival candidates to vote for each other, and if this upon the first ballot, but he knew that there was but one majority of the American party in the House, and if he had mind that he scorned to resort to the expedient, and gallently threw away his

> vote. At last a resolution was adopted to the effect that, after a certain number of ballotings, the candidate having the plurality of votes should be declared elected. When this resolution passed, Brown declined the nomination, and the House adjourned. At the next session Gen. Donelson also withdrew, and M's Cloud and Gov. Brown were put in 35, Brown 36; and after four bollotings Governor Brown was declared elected and took his seat as speaker.
